OUR VISION

To become the world's most trusted name in coconut-based food and drink - uniting traditional Thai craftsmanship with modern, health-conscious innovation.

Millico®
SUSTAINABILITY & QUALITY

OUR MISSION

To share the natural richness of Thailand's coconuts with the world through products that uphold the highest standards of purity, flavour, and sustainability.

About Millico

Millico is a proudly Thai brand devoted to bringing the world the purest, most naturally nourishing coconut-based products. Deeply rooted in Thailand's agricultural heritage, we specialize in the use of Nam-Hom coconuts - a rare and aromatic variety celebrated for its naturally sweet taste, floral fragrance, and exceptional nutritional value.

At the core of Millico is a profound respect for nature, the land, and the people who cultivate it. Our coconuts are grown without synthetic inputs in carefully chosen Thai regions where sun, rainfall, and fertile soil form the perfect natural balance. The result: coconuts that are sweeter, more fragrant, and packed with natural goodness - just as nature intended.

From farm to final product, we are committed to preserving the integrity of the coconut. That means no added sugars, no artificial flavours, and no preservatives. At Millico, we don't just produce coconut products - we offer the true essence of Thailand, in its most authentic and natural form.

Guided by tradition and fueled by innovation, our goal is to set a new global benchmark in coconut-based food and beverage products, built on quality, sustainability, and transparency.
